Proposed Telegraph Lines.

New York, Dec. 15.—Before the Union League Glub, in this city, last night, Senor Bery Mackenna, of Chili, speaking of the telegraph of his country, said that Chili was the first country in South America to offer its cordial support to the great lides of encircling the world with telegraph. Chili had its first line of telegraph between Santiago and Valparaso in 1850, and now there are two lines connecting those cities. Chili is now building nine hundred miles of inland telegraph. When bigoted Spain wasged a cruel and unjustifiable war Chill ordered some nine hundred miles of telegraph to be immediately made to protect the country and sent her soldiers to the place threatened by the Spaniards. The speaker said that the only practicable telegraph routes in South America from ocean to ocean was through Chili. He thought that a line would soon be completed on a plan similar to those of the overland route to Behrings Straits. There are two routes proposed, in both of which Americans are interested; one is to follow the line of a proposed railroad 200 miles in length, and the other is to lay a submarine wire from Panama to Valparaso, following the route pursued by steamers. This line will connect at nearly all the ports, so that the stations will be from 10 to 100 miles apart. There is a project for a Mexican telegraph to Panama by which news can be conveyed from the United States and Europe to Buenos Ayres at the expense of a few thousand dollars. South of Panama there is not a single commercial steamer that bears the American fiag. That commerce has been entirely monopolized by a fleet of English steamers.

Large Sale of War Material THREATENED WITHDRAWAL OF Departure of its Chief Secretary The Telegraph in Chili. New Railroad from New York to THE GREAT FRENCH EXPOSITION

> The Question of Admission of Southern Members to Congress.
>
> New York, Dec. 15.—The Post's Washington special says:
>
> The question of admission of the southern claimants of seats in the House of Representatives is now considered fully determined, the vote of the House adopting the Stevens' resolution by 213 being regarded as conclusive evidence that they will not be admitted this winter.
>
> The Commercial's Washington special says the departure for Europe on Wednesday of the chief secretary of the French Legations, as connected with the recent development of the Mexican question, the temper of Congress and of the growing pepular sympathy with the liberal cause in Mexico, together with the appointment of Gen. Logan, has led to communication between Count Marthalon and the State Department, which resulted in sending a message to the French Emperor for definite instructions. It is said that the withdrawal of the French Legation from Washington will take place in case of the formal agpointment of a U. S. Minister to the Mexican Republic. The Question of Admission of South-

New York, Dec. 15.—The Tribune's Washington special says:
Desertions from the regular army are becoming alarmingly frequent.
Generals Banks and Swift delivered addresses last night before the National Equal Suffrage Association at Washington, taking strong grounds in favor of negro suffrage.
Great activity pervades at both headquarters of the Fenians in this city. Anathimas from each party denouncing the other, continue to be issued. Last night the usual meeting of the Manhattan Lodge was so largely attended that the floor began to give way and the meeting adjourned to the 99th regiment's armory. They emphatically endorse O'Mahony.
The World's Washington special says:
Two banks with a capital of \$200,000

The World's Washington special says:
Two banks with a capital of \$200,000 each, were chartered to-day at Charleston, S. C.
Upwards of two millions of currency have been issued to national banks within the last two days. The total amount now issued is two hundred and twenty-eight million four hundred thousand. It is announced that the Secretary of the Treasury has now good reasons for being satisfied that the wants of the War Department will not amount to anything like what he was led to suppose they would. Many circumstances have occurred since the estimates were made, to warrant the conclusion now reached and believed by the Secretary to be correct. He is very confident that he can get along during the present year without further loan, and without increasing the public debt, and he is of the opinion that next year he will certainly be able to diminish it very much. Philadelphia, Dec. 15.—At a meeting of the Fenians at Wilmington, Deli, last night, resolutions were passed endorsing Mahony.

The Union Circle of the Fenians of Gloucester City, N. Y., have also endorsed the action of Mahony.

H. G. Collins, the projector of the Russian-American Telegraph, delivered a lecture on that subject last night before the Union League in this city.

The number of vessels sailing from New York to the ports south of Baltimore, Washington and Alexandria at present were fifty, which will comprise about two-thirds of all the vessels gong to the ports in the U. S. The number of vessels going to the same ports for the week ending December 6th, 1885, was fifty-four.

The Hoboken Bonnty Frauds.

New York, Dec. 15.—James Hughes, alleged to be concerned in the Hoboken bounty frauds, was yesterday committed to fall to await his trial. His solicitor announced his intention of applying for a writ of habeas corpus on the ground that ball had been improperly rejected.

A discussion took place last evening at the rooms of the Polytechnic Institute of the Control of the Chinese government to establish a telegraph officers to assert in Cooper Institute, regarding the Chinese showed themselves average to the scheme, and the officers have returned.

Y. Dec. 15.—This morning walling the chinese showed themselves average to the scheme, and the officers have returned.

ground that ball had been improperly rejected.

A discussion took place last evening at the rooms of the Polytechnic Institute, in Cooper Institute, regarding the proper representation of the United States at the great French Exposition at Paris in 1867. Prof. Jay made some explanations and urged the necessity of prompt and co-operative effort in the movement. Mr. Derby, the government agent, explained the mode of obtaining the necessary space, and the scope of the Exposition was fully explained by those familiar with the schieme.
